Our Purpose

Our purpose is to build a community of inspired young outdoor enthusiasts who, as leaders, possess the tools, skills, and experience necessary to make sound decisions.
Our Program

At Miramont by Genesis, we love working with kids. As our kids become young adults, we want to continue to grow with them and challenge them. The Adventure Leadership Program gives us the opportunity to engage with older youth outside the walls of our health clubs! We learn about climbing at our indoor facility, and take these skills outside to local climbing areas. We hone our paddling skills on Horsetooth, take guided whitewater rafting trips on the Poudre, and learn how to go camping or take a self-supported backpacking expeditions.

We believe that dynamic wilderness experiences have the ability to change lives and leave lasting impressions. As facilitators, we love witnessing positive growth and changes in our participants, and we know that the power of their experience is more impactful than we ever could be. Our first priority is always safety. The activities that we enjoy do not come without risk, but we let our adventurers take on appropriate challenges when they’re ready. An incredible thing happens when we educate kids about risks and what we do to manage them. They gain exposure to more complex decision-making and become empowered to tackle bigger obstacles while being capable of assessing risky situations in their own lives. We believe in the power of experiential learning, and deliver an experience that can help kids grow. We produce leaders who discover a greater sense of responsibility for themselves, their communities, and our planet.
Multi-Adventure Challenge (M.A.Ch.)
Ages 10 - 12 & Ages 12 - 14

This program is all about intense outdoor activity! We learn how to navigate up rocks, along trails, across flatwater, through whitewater, and even cooking in an outdoor Dutch Oven! Each of these weeks look a bit different, but we maintain a focus on enhancing outdoor leadership skills and discuss how they can be beneficial to our everyday lives.

First Ascent
Ages 12 - 14
This program is made for our rock enthusiasts! We meet each climber where they’re are at and aim to push their climbing levels through a focus on proper technique and strength conservation. We go WAY more in-depth with climbing and belaying skills, knot tying, and anchor building. Participants will also learn more about what goes into facilitating their own climbing experience and the systems that keep them safe!

H2O YEAH!
Ages 12 - 14
As the name implies, this program is all about the water! Each day we explore a new water activity in Fort Collins and the surrounding areas. We will learn the ins and outs of paddle sports such as canoeing and stand-up paddle boarding, go tubing, have beach days, and set out on some fishing outings! If your outdoor enthusiast can’t get enough of the water during the hot summer days, this program is for you.

Expedition 2.0 - Yurt Edition
Ages 12 - 14
An unforgettable experience for youth wishing to take backcountry living to the next level! Students will embark on eye-opening experiences that foster the sense of leadership within community while empowering the students’ independence. Through learning how to navigate through the backcountry and cook on outdoor equipment, each camper will harness an understanding of their self-identity through working with their community of other students. To ensure the proper experience, we can provide certain gear essentials (backpacks, sleeping pads, and stoves) and teach all necessary skills.

Testimonials
Hear what parents had to say...

“The overall program - outdoors all day, the skills taught, the instructors, the size of the group. Love all of it!”

“(My child) has been to a lot of camps and this one really stood out because of the counselors. It was obvious that they really engaged with each child. When I signed her up, she told me flat out there was no way she would do an overnight camp, but in the end, was successful and had a great time!”

Hear what participants had to say...

“Something new I learned about leadership is that sometimes you have to guide people and do the right thing so others can see what that looks like.”

“From ALP I learned that I have lots of positivity in my self and I have self-control.”

“I never thought that I could do what I did this week, like conquer my fear of heights and push myself past my personal limits.”

“ALP is an energetic place to be!”
