

Welcome to Genesis!

Kristin "Kris" Kramer graduated top of her class in 2002' from Capital School of Esthetics. She was placed right out of school into a spa where she was the only Esthetician among 22 hair stylists. After four years there she moved into one of the largest Day Spa's in Omaha where she worked for over 14 years.

Kris's love of esthetics and teaching led her to become a Senior Skin Care Educator for H.Maloha skin care products. Over the years she has worked with local magazines, fashion shows and has done makeup for the Aksarben Balls here locally. Kris was a featured Esthetician on the TLC Channels show "Extreme Makeover." She is educated in several skin cares and stays up to date on all the latest skincare trends and techniques.

After several years at one of the top spas in the Metro, Kris was promoted to Lead Trainer & Esthetician. Her love of the ever-advancing skin care & business led her to branch out on her own in 2019'. In that time Kris learned several new services and received additional training to become certified in sanitation/disinfection procedures & safety measures.

Kris spends time educating her clients on products and regular skin care maintenance. In her free time she loves to spend time with her 7 year old daughter reading and painting.

After 19+ years in the business, she wanted to incorporate healthy living into her client's routines. A collaboration with a fitness club was the next natural step. Genesis at Westroad has ADDED a Spa to their location and Kris has joined the Genesis Family! She is here to attend to any of your skincare and waxing needs. Below you will find a preview of services that will be offered at the Spa.
